# LOCAL INTELLIGENCE.

ACCIDENT ON THE RAILROAD, BUT NO LIVES Lost .- On Saturday evening, as the 5 o'clock train was coming here from Baltimore, an accid nt occorred which threatened fearful results, but fortunately no person was even hurt. It appears that at Penn branch, just on crossing the bridge, two oxen got in the way, and were carried forward by the cowcatcher and engine until after passing the bridge,

when the obstruction caused the upsetting or locomotive, and four cars followed, stopping the whole train. The passengers were in great alarm, but Captain Humparies, who was conductor at the time, soon quieted their fears by satisfying them that there was no danger, although much inconvenience. There lay the monster iron-horse prostrate and there one of the ozen lay dead, the other being much injured, the track was also torn up, and ther were the pa-sengers not knowing what to do. It being but about fourteen miles from the city, all who could not secure conveyances walked in, while oth ers remained in the cars, waiting the turn of events that would put them on their way rejoicing. Nothing could be done, however, as it was Saturday evening, and the workmen at the depots naving retired to their homes, until the next moreing. Mr. Calvert, whose extensive farms are near by the scene of disaster, as soon as he heard of the accident, from his well-filled larder, bountifully supplied the wants of the passengers who were compelled to remain over

The down train at 8 o'clock, on Saturday evening, and the train at 4 o'clock, yesterday morning, were compelled to lie over at Beltsville until the damage could be repaired. Those who spent the night at that noted place, will for a long time remember th poor fare and bad rum kept at the tavern there. In stead of paying some attention to the wants of the passengers, who were willing to pay liberally for supper and breakfast, the landlord was wholly absorbed in disposing of his imitations of brandy and whisky, which could be properly called "liquid poison" and "distilled damnation." At 9 o'clock, yesterday morning, things were so arranged as to allow the cars to pass over the road, when the trains were brought to Washin ton, much to the joy of those who spent an impleasant night at Beitsville. The conductors de-serve credit for their kind attention to the passengers.

SOMETHING OF GREAT VALUE .- Our young fellow citizen, Mr. L. Stewart, not long since patented saw which bids fair to reduce the power required hereafter in sawing up lumber, nearly, if not quite. one half. We have seen it in operation, and know from much experience in such matters, that what we say of its performances is true. We are also borne out in this opinion by that of all the scientific and practical men in this city who have witnessed its operation. It took the premium, as it deserved to do, at the recent fair of the Maryland Institute. Its teeth 'of the saw) are so constructed, as that each tooth cuts its way clean through the wood without tearing or forcing the saw; each tooth ope rates as a morticing chisel, and cuts a chip or con of the thickness of the advanced space (vertical) between it and the tooth standing next behind it. The cutting part (front) of each tooth is vertical. The blade of the saw is of equal width. That is. its back forms a line parallel with the inclined plane formed by the points of the teeth, each succeeding one jutting deeper than the one before it. The width of the opening between each pair of teeth is regplated by the length of the saw and the size of the timber upon which it is designed to use it, so that each space between the teeth shall be capable of holding the chips or core that the tooth behind it cuts. The saw is capable of being conveniently attached to any mill without new rigging or fixtures of a y kind whatever.

The curious in mechanical improvements will find one of these saws in operation at the machine shop of Mr. McClelland, on the corner of E and 10to streets, where, with a three or four horse power engine, it is doing as much as can be done by any other saw we know of, driven by an eight or ten horse CONTENTS OF THE CORNER STONE .- The corner

stone of the Metropolitan Methodist Episcopal Church being laid this afternoon, on the corner of C and four-and-a-half streets, contains the following arti-A register of the Baltimore Conference, and gen-

eral migutes; Bible without note or comment-the received version-which is considered the rule of faith and practice; Methodist hymn book, containing the Methodist theology in verse; the Book of the Methodist Church Discipline, containing the laws. usages, and economy of the Methodis. Church; beautiful copy of Hickey's Constitution of the United States, presented by the compiler, embo ying th organic law of the land; the inaugural addresses of the first four Presidents, and of the present President; the Compendium of the Seventh Census, just printed, and not bound; the papers of the District, and the papers of the Methodist denomination; the names of the architect and builders of the church; the names of the trustees of the church and building committee; the name of the general agent of the church, Rev. Henry Slicer, and of the Methodist Bishop; a list of the names of the officers o the General Government; the names of the officers of the City Government, Mayor, members of each board of the City Councils, judges of the Supreme Court, and circuit court, marshal of the District, and district attorney; the last congressional directory; and the proceedings of the Continental Congress.

Is no More. -- The unfortunate young man, Jas. Cuthbert, who lacerated his throat on Friday n ght, died on Saturday of his wounds, as was expected. A large number of sorrowing friends attended his funeral yesterday afternoon. Blair says: "To run away

From this world's ills, that at the very worst, Will soon blow o'er, thinking to mend ourselve By boidly venturing on a world unknown And plunging headlong in the dark-'tis mad! No frenzy half so desperate as this."

THE HIGHLANDERS-Contribution to the Mont ment .- We learn that the commissions have been

issued for this new company, and having their uni forms, are making preparations for an early parade. as soon as they can get their muskets, and some ne ssary arrangements can be made. Not being ready to parade on the 19th, they met on the even ing of that day, and passed a resolution unanimous ly for the officers to contribute five dollars each to the Washington Monument, and the men one dollar each. This will exceed the highest contribction made by any of the companies on the day of the THE CAPITOL. - This building is an every day sight,

but few, however, know its history:

The corner stone of the Capitel was laid by Gen Washington, Sept. 18, 1782. The original design was by Dr. Wm. Thornton, (an amateur architect.) modified by B. H. Latrobe, and finished by Bulfinch Length of front, 352 feet 4 inches. Depth of wings 121 feet 6 inches. East projection and steps, 65 feet. West projection and steps, 83 feet. Height of wings to top of balustrade, 70 feet. Height to top of centre dome, 145 feet Height above tidewater, 215 feet. Roundo 96 feet in diameter and 90 feet high. The Library is con tructed entirely of iron, and is 92 feet long, 34 feet wide, and 36 feet high. The new wings, each 238 by 148 feet. Total length of building when finished, 740 feet. The wings will be joined to the old building by covered pas age ways.

IMPORTANT MEETING .- The meeting of the city Councils this evening will be of unusual importance, as the excitement in the city about the bread law, the hucksters' act, and the grocers' and tippling house bills, will call for their immediate action, or possibly re-action. It is to be hoped that our City Fathers will in some way lull the rising storm. The butter dealers, principal tavern keepers, and hucksters have already presented their memorials, and this evening the petition of those who met at the Odd-Fellows' Hall, is to go in, and will probably be acted upon, as the object is of a pressing character.

CHANDELIERS FOR SMITHSONIAN INSTITUTION .-There may be seen at the lamp establishment of Mr. John Reese, corner of the Avenue and Sixth street, a specimen of the new chandeliers to be put up in the lecture rooms, hall, &c., of the Smithsonian In stitution. The work is of a new style of bronzing for which a patent has been obtained, the whole presenting an elegant appearance, harmon zing in color with the building. Capt. Alexander, of the Engineer Corps, who has charge of these matters, has shown excellent tas,e in the selection of these beautiful works of art.

THE HUCKSTERS ON A STRIKE .- On Saturday evening the housekeepers were much surprised on going to the Centre and Northern Liberties markets, at not finding the hucksters there with their usual supply of vegetables. Not a potato could be had fo love or money, except early in the evening, the huck-sters having withdrawn from the market on account of the new huckster law. We learn that they have determined to stand out for their rights. The Hucksters were also absent from the West Market this morning, and are determined on stick

ing to the strike. INQUEST AT THE JAIL.-This morning, Coroner Woodward held an inquest at the jail over the body of a colored prisone hamed John Dement, who had been committed in December last for larceny. He was afflic ed with chronic diarrhea when he came to the prison, and the inquest found that he came to his death from that disease. He was aged between fifty and sixty, and it is understood was born in one

of the West India Islands. In Inox8 .- Lucas having made a third attempt escape from jail, the Warden has been compelled to resort to extreme measures to secure him, and he is now, we understard, in frons and fastened in one of the cells. Such is the unpleasant consequence of the want of a little pattence and good behavior.

RE-OPENING OF THE DELUGE .-- Morgan's Mirror of the Creaton and the Deluge, painted by George Hidge, Eeq., and formerly owned and exhibited in this city by Dr. Beale, will open in Odd Fellows' Hall, on Wednesday of this week. This newly revised panorama, with an entirely new diorama and several new and superb scenes recently painted, among which are the Fairy Grotto and the Temple of the Mermaids, with a grand concert by the Bos ton blind vocalist, Miss Ellen Sophia Emmons, is said to be even more attractive than when exhibited here for many weeks, to enthusiastic and overwhelm ing crowds, some two years since. It then won the un'versal approbation of the clergy and the press of Washington, and gentlemen of the highest official

whose recommendations are still presented upon the programme. As the new scenes are paint d by the original artist, with careful study and more matured experience, persons witnessing it before will feel confident of its present transcendent merits.

CIRCUIT COURT-Gardiner Case.-The Circuit Court. Judges Morsell an Dunlop presiding, was engaged in the case of the appeal of Messrs. Bradley and Carlisle, who claim to be the proper administrators of the estate of the late Dr. Gardiner. The ludge of the Orphans' Court decided, last summer. to appoint Samuel Casey, Esq., Treasurer of the United States, the administrator. It is from this decision the appeal is made. The amount involved is upwards of \$200,000, rendering it quite an import ant case. Messrs. Fendall, Lawrence, and Chilton, appear for Messrs. Carlise and Bradley. Mr. Key, the U.S. District Attorney, and Mr. Redding, are counsel in favor of the decision of the Orphans'

THE LATE STABBING CASE.—We are gratified to earn that Geo. W. Olds, who was stabbed October 10th, at the Empire House, by Wm. Weeks, is fast ecovering from his injuries. He is able to be about. Weeks is still in prison.

FUNERAL.-The membes of the Good Intent Beneficial Society of Washington, followed to the grave yesterday afternoon, the remains of William Lally, a deceased brrother.

WATCH RETURNS .- On Saturday night, two young fellows, W. H. Butterball, aged nine years, and James Grace, aged eleven, were brought to the watch-house as vagrants. David Curtis, slave, run away from Dr. Gunnell, was also brought in. 'Last night, Sarah Barnes, colored, free, aged eighty years, a helpless creature, passed her time in the lock-up till this moining. James McMahon, charged with peddling without authority, also spent the night there. All of them were dismissed by Capt. Birch, there being no one to sustain the charges.

## ALEXANDRIA CORRESPONDENCE. Rastroad Meeting and Proceedings-Special

Election.

ALEXANDRIA, Oct. 23, 1854. The late meetings of the Manassas Gap and Alexandria, and Loudon and Hampshire Railroad Companies, which occupied a considerable portion of

public attention, and a large space in our journals of

last week, may be summed up as follows:

The Manassas Gap Railroad Company assembled at Liberty Hall, on Thursday, 19th inst., Gen. Meem, of Shenandeah, chairman, B. H. Berry and Edward Green, secretaries. A committee of five was appointed to examine proxies, who reported that representatives of a majority of the stock were present. Mr. E. C. Marshall was re ejected president. After some discussion in regard to Rockingham's right to a director, during which Mr. W. H. Fowle declined a nommation, and announced that he intended resign every public trust, Messrs. Fowle and Boswell were re-elected directors. The Board of Directors were authorized to expend the net earnings of the road for the year upon the independent line The State proxies were allowed their expenses. Next morning, the directors were instructed to inquire into the expediency of declaring dividends to the original stockholders, and at night the president and directors were authorized to borrow \$200,000 for the purpose of carrying out the objects of the original charter, and to secure such loan by a mort gage upon the property of the company.

The Alexandria, Loudon and Hampshire Railroad Company met, pursuant to adjournment, at Sarepta Hall, on Friday morning. The annual reports of the officers were read. The Board of Directors were authorized to construct a branch road to such point opposite the city of Washington as they may deem most convenient to connect with a new bridge. whenever the same may be built. The action of the Board in contracting for the bridging, masonry, and grading on the line of the road between Alexandria and Clark's Gap was approved. The confidence of the stockholders was expressed by resolution, and the aid of citizens invoked. Messrs. Miller, Braden. and Bruce were appointed an examining committee

and the company adjourned. The special election to fill the vacancy in our Common Council from the First Ward takes place to-day. Mr. Josiah H. Davis is opposed by Mr. George Plain, whose name is upon the "American" (Know-Nothing) ticket. This ward has heretofore been the Whig banner ward of Alexandria. Amt.

so IT should be universally known-for it is strictly true—that indigestion is the parent of a large proportion of the fatal diseases. Dysentery, diarrhose, cholera morbus, liver complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that, dyspepties; think of it all who suffer from disordered stomachs, and if you are willing to be guided by advice, founded upon experience, resort at once—don't delay a day—to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, which, as an alterative, curative, and invigorant, stands alone and unapproached. We have tried the Bitters; and know that they are excellent for the diseases specified above. For sale dealers in medicine everywhere.

Those of our readers who desire to pass through a splendid Gallery of Pictures, should not fail to pay a visit to Plumb's Rooms on the Avenue. He has on exhibition there some choice specimens of the new art of Daguerreotyping in Oil, which for beauty and excellence are incomparable. There is a portrait executed, in this last style, of President Pierce, that reflects great credit on the artist, every lineament thereof giving a life like expression. Mr. Plumbe is reckoned among the first Daguerrean artists of our time.
